What People are Saying about "Time Ship" "A riveting read that kept me on the edge of my seat and guessing 'till the very end! This book has it all - mystery, romance, the past and the future. With brilliant characters and an attention to detail that paints wonderful pictures in the minds eye. It's funny, exciting and extremely clever. I was not able to put this book down, I was constantly eager to see what was coming next. It's a brilliantly written book that left me feeling like I'd been on an adventure." "I kept wondering how anyone could possibly have thought of this and then woven the story to such an extent that you actually believed that lots of this was fact and not a story at all! The ending was phenomenal and showed a more than fertile imagination. I laughed out loud! The books were read first by my husband who muttered every so often 'This guy is amazing. His writing is so clear, and his imagination is (literally) out of this world.' " "A brilliant concept - science put across in an easily understandable way and a thrilling read. Packed with thrills, spills (literally!), adventure, history, romance, thought provoking scientific possibilities of time travel and epidemiology. This book crosses so many genres yet contains plenty of fun and humour. A must buy." Presentation de l'diteur Borrow FREE with Kindle Unlimited!
