SamMeeking's debut novel, 'Under Fishbone Clouds' is one such discovery utterly beautiful and memorable. Set in China the reader is invited to follow the life journey of Jinyi and his wife Yuying, from their youth until old age, always aware of the

dramatic events of recent Chinese political history, and with the voice of ancient Chinese mythology firmly at one's shoulder. This is very fine storytelling that handles, with great care, life often at its most raw.

Meeking presents us with the gift of a brilliant debut novel. --Alexander McCall Smith 'Nuanced, alert and intelligent' --Scotland on Sunday
